

Safety Bulletin

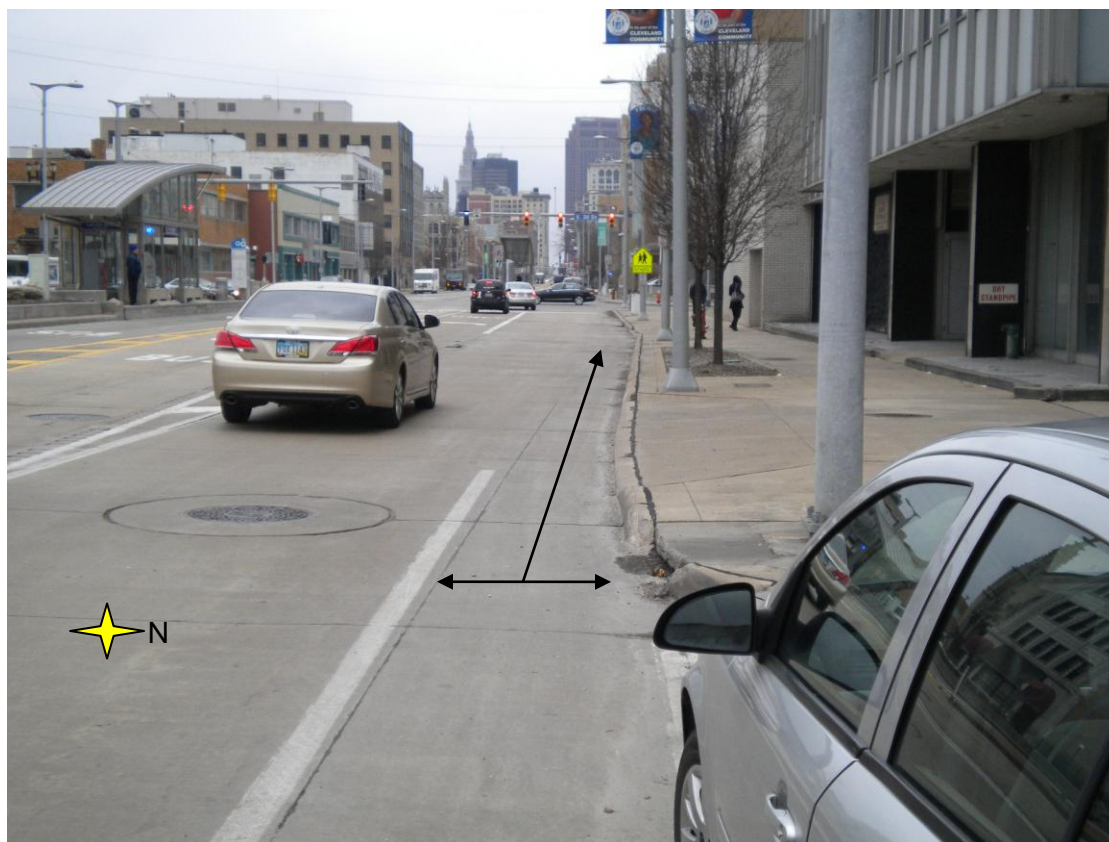

To: Hayden and Triskett
All Bus Operators

SUBJECT: High Alert Intersection: Euclid and E. 30th traveling Westbound – Bike Lane ends and Bicycles Merge with Traffic.

At Euclid and E. 30th traveling westbound the bike lane temporarily ends and bicyclists must merge into regular traffic. Operators on the #9 route must be aware of any bicyclists beside them or near them at this location so that six (6) feet of safe distance is provided to the bicyclists. The bus will need to vacate the curb lane to allow the designated distance of six (6) feet.

If you are behind the bicyclist at the far side of this intersection and want to pass, as an Operator you must do the following:

- Signal audibly to the bicycle being overtaken.
- Leave a safe distance, but not less than six (6) feet, and
- Vacate the lane in which the bicycle user is located when you pass, unless you can pass with a safe distance not less than six (6) feet.
- Maintain that distance until safely past the overtaken bicycle.

The designated bike lane temporarily ends at Euclid and E. 30th forcing bicyclists to merge with traffic approaching the intersection.

Safety Bulletin

“Share The Road” sign prior to the end of the designated bike lane.

End of bike lane
