

GCRTA CITIZENS ADVISORY BOARD
ADA COMMITTEE MEETING SUMMARY

DATE: 7/17/08

TIME: 9:30 am

SUBMITTED BY: Steve Albro

PRESENT: Steve Albro, chair, Frank Anderson, Marty Golob Ron Jackson, Donna Preisse, Eugene Thompson, Hilda Perez RTA Staff.

John Goodworth of GCRTA sent word that the door from the platform to the head house at W. 117th St. RTS is now equipped with a motion sensor. This is to address an ADA committee concern that the door opener button was located too close to the edge of the platform. Mr. Goodworth also stated that a stair climbing device will be demonstrated at 1240 W. 6th during the week of 7/28. The ADA Committee's input is welcomed Ms. Perez will inform Mr. Albro of the date and time. Mr. Albro will inform the committee. Mr. Goodworth acknowledges that he needs to report back to the committee issues raised during the June committee on plans for the Puritas RTS renovation

The committee toured the Communication Center. We saw the monitoring equipment and other equipment used for rail, bus and police. We learned that elevator status information is available at the RTA Information Hotline at 216-621-9500 ext 5170. This answered a committee concern about accessing elevator status information by ADA customers that do not have access to the Internet.

Mr. Albro will speak with Ms. Perez re the September agenda.

Adjournment at 11:03 am.
