

RTA CITIZENS' ADVISORY BOARD

The RTA Citizens' Advisory Board, at its meeting on July 20, 2000 recommended to the RTA Board of Trustees:

The effective functioning of lifts and ramps on fixed route buses is crucial to the independence of persons with disabilities. These guidelines are part of guidelines for transit systems, as required by the Federal Transit Administration. Therefore, CAB recommends that the Board of Trustees approve the proposed revision of June 2000, Service Quality Criteria Guideline 1018.04 - 3F, as written.

Motion by Steve Albro, seconded by Bob Wiesenberger, passed unanimously.

George Zeller, Chairperson
