

Applicant Tracking System Services

Organizational, Services & Performance
Monitoring Committee

March 7, 2023

Project Overview

In April 2022, GCRTA staff participated in a Kaizen event.

It was determined there were some critical process bottlenecks and limitations related to the Oracle iRecruitment Applicant Tracking product.

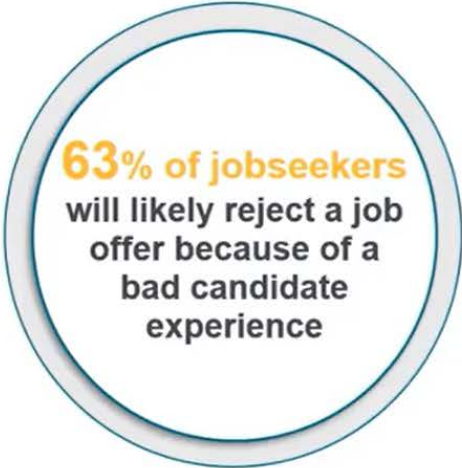

Action items were established, with one of them related to replacing the Oracle iRecruitment product with a new Applicant Tracking System (“ATS”)

Project Overview

Current recruitment tool deficiencies

- Not mobile friendly
- No electronic signature capability
- No automated notification to candidate
- Limited reporting capabilities
- Difficult for HR staff to navigate and maintain
- Double data entry (Recruiting and HRIS)

Project Overview

Modern ATS benefits

- Isolate hiring population from the current employees
- Built-in reporting capabilities to identify bottlenecks and address them in real-time
- Mobile friendly, SaaS solution allowing for high uptime and fast processing
- Built-in integrations with existing hiring platforms
- Bidirectional integrations with Oracle EBS to allow for single data entry and process streamlining
- Modern ATS meet the needs of both the Recruiting Team and the Applicants
